OR-370 Advanced Audio Waist Belt

The ORCA OR-370 is an advanced, lightweight waist belt that will help you carry your small or medium sound bag on your hip without putting any pressure on your shoulders. Connected to the audio bag via four carabiners for quick connection and release it is ideal for working on outdoor location shoots. The belt is well-padded with memory foam for full comfort and can be used as a frontal holder for gimbals or boom poles.

Main Features:

- 4 connection buckles
- Easy connection to any Orca audio bag
- Comfort memory foam padding
- Unique adjustment rotating system
- Comes with small carrying pouch

Comfort memory foam padding

4 connection buckles

Unique "rollers buckles" that can be used to tighten waist belt around user's hips for perfect fit and weight distribution

Can be use as frontal holder for gimbals or boom poles
