

SBAC-T40

SxS memory card Thunderbolt 3 reader/writer

Übersicht

The SBAC-T40 is a portable bus-powered memory reader/writer supporting the Thunderbolt™ 3 interface* that's compatible with SxS removable memory cards.

The compact, lightweight and durable SBAC-T40 is ideal for stable, high speed 4K video file transfers, desktop browsing and direct video editing with Mac and Windows PC.

SxS PRO X accelerates effective transfer speeds compared with SxS PRO+. As an illustration, a 38-minute 4K@60p video clip stored as a 240GB XAVC-I file can be transferred via in just 3.5 minutes - approximately three times faster than SxS PRO+.

*Under certification. Thunderbolt and the Thunderbolt logo are trademarks of Intel Corporation or its subsidiaries in the U.S. and/or other countries.

Funktionen

Direct Thunderbolt 3 connectivity with latest Macs

The SBAC-T40 connects directly with the latest Macs via the supplied Thunderbolt 3 cable, with bus powering via the same cable eliminating the need for an external PSU.

Compatible with Mac OS and Windows

The SBAC-T40 is ideal for use with both Macintosh and Windows-based computers equipped with Thunderbolt 3.
