

# CUE-J Series

## All-New V-Mount Battery Series

IDX System Technologies is pleased to introduce the **CUE-J Series**, the next generation of our ever-popular V-Mount batteries. The series consists of the **CUE-J98**, **CUE-J150**, and **CUE-J198** utilizing the latest lithium-ion battery technology that allows IDX to increase the capacity of these new Cue series products. The CUE-J98 has a battery capacity of 95Wh, the CUE-J150 has a 143Wh capacity, and rounding off the series is the CUE-J198 with a 190Wh capacity. Each CUE-J series battery has single built-in **D-Tap** output capable of taking a 80W load and a **4-LED** power indicator. The CUE-J Series battery products are designed to be an affordable, reliable option for a variety of power needs such as powering cameras, portable production monitors, portable lighting and audio products that require power from a V-Mount plate or D-Tap to XLR cable input.

### Main Features

- Cost-effective V-Mount battery
- 1x D-Tap Output
- Over-charge, over-discharge, over-current protection
- 4-LED power indicator
- Durable design and casing

### Product Specifications

	<b>CUE-J98</b>	<b>CUE-J150</b>	<b>CUE-J198</b>
• <b>Capacity:</b>	95Wh	143Wh	190Wh
• <b>Max Output Voltage:</b>	16.8V	16.8V	16.8V
• <b>Nominal Voltage:</b>	14.54V	14.54V	14.54V
• <b>Max Draw:</b>	10.7A	13.9A	13.9A
• <b>Power Outputs:</b>	1x 80W D-Tap	1x 80W D-Tap	1x 80W D-Tap
• <b>End Voltage:</b>	11.2V	11.2V	11.2V
• <b>Weight:</b>	1.38 lbs.	1.96 lbs.	2.38 lbs.
• <b>Dimensions:</b>	3.82x5.75x1.54 in.	3.82x5.75x2.32 in.	3.82x5.75x2.32 in.
• <b>Additional Features*:</b>	Over-charge, over-discharge, over-current protection		
• <b>Ambient Temperature*:</b>	32°F ~ 104°F (Charge), -4°F ~ 113°F (Discharge), -4°F ~ 113°F (Storage)		

\*applies to all batteries
