

Vision 24

24" 4K HDR Monitor

Vision 24 allows you to see as your camera sees. Engineered to equal modern sensors' increased sensitivity to highlight and lowlight image retention. Powered by SmallHDR™, a proprietary Full-Array Local Dimming (FALD) hardware that enables nuanced control of over 2100 zones, rendering hyper-sharp contrasts with deep blacks, crisp highlights, and a stunning 10-bit color depth. Ideal for use in any production environment where HDR monitoring is a necessity, Vision 24 provides the added security that every detail is captured.

Target Ship Date: September 2020

SKU: MON-VISION-24

Product Highlights

- 24.1in/61cm Full-Array Local Dimming (FALD)
- 1000nits
- 1,000,000:1 Contrast Ratio
- 10-bit Color Depth
- 2176 Zone high-density FALD Backlight
- 4096 x 2160 Resolution
- Weight: 19.7lbs / 8.9kg (with handle & feet)

Key Platform Highlights

PageOS 4 software platform

- 4K HDR waveform and scopes*
- Dual & Quad-view*
- Color Pipe HDR color rendering
- Monitor Calibration Wizard

Power

- Hot-swappable dual inputs: 1x 3-pin XLR, 1x Dual-GM/VM Battery Plate (sold separately)

**Update available Q4 2020*

Unibody Smart Chassis

- Smarttrail for battery and accessory mounting
- Interchangeable mounting points
- 2x 2-pin accessory power outputs

Small4K™ Video Processing Architecture

- Inputs: 4x 12G-SDI, 1x HDMI 2.0
- Outputs: 4x 12G-SDI, 1x HDMI 2.0*
